Rakesh Verma, Group Chairman & Managing Director, MapmyIndia, commenting on the Q3 and 9M FY26 results, "From a financial perspective the quarter has been weak and this is due to the seasonality. There has been major investment in building our IP's in the areas of Navigation Software and HD Maps. There has been major wins in all the sector of our business and similarly several project implementation in under pipeline and we see getting them completed in Q4FY26. We still believe our guidance of 35% EBIDTA margin will hold on a full year basis. The revenue growth will be stronger in Q4FY26 as compared to Q4FY25.

The Company's open order book has increased significantly to ₹1,770.7 crore as of 31st December, 2025 from ₹1,500 crore as of 31st March, 2025, providing clear, long-term revenue visibility for the time to come.

The Company had implemented the basic Labor Code rules in FY23 itself, and as such no financial impact for the future was observed by the Statutory Auditors of the Company and hence there has been no need for making any provisions".
